SHORTAGE NOTICES TO MEIRA NOVA

Meira Nova centralizes and automates the receipt of shortage notifications.

In the future, all sales interruptions, product discontinuations and start-ups should be sent to saatavuus@meiranova.fi

Notifications of sales interruptions and delivery deviations related to public holidays must use the attached form, which enables the transfer of data using automation to Meira Nova's Webstore (customer ordering system) or internal further processing (inventory products).

With this change, we aim to further improve availability communications to the end customer and ensure a rapid response to potential product substitutions to improve availability to customers.

Any changes to the dates regarding product availability must be notified to us using an updated form.

Related questions can be sent to saatavuus@meiranova.fi

The change will take effect on December 13, 2021

Regards,
